### About This Content

Big Band's in full swing!

Once a cop known as Ben Birdland, he fell flat when he got on the wrong side of New Meridian's corrupt police force. Birdland was broken and bent out of shape by his former colleagues, but was tuned up by Dr. Avian and ASG Lab 8. Now he is armed with a full ensemble of pneumatic weaponry, making him the full fortissimo instrument of justice: "Big Band."

Thanks to the incredible support of Skullgirls' fans, Big Band is the second of 5 additional characters funded by Lab Zero's Indiegogo campaign to be added to Skullgirls Encore. Big Band is Skullgirls's first male character, and lives up to his name with unique gameplay mechanics that take advantage of his tremendous size and musical motif.

Big Band features the same stunning, feature-quality animation and great gameplay you've come to expect from Skullgirls and Lab Zero Games, as well as a story mode and detailed tutorials so you can learn more about him and the Skullgirls world!

Now, you might be thinkin, "Gondy, oh Gondy, why oh why would I play Big oh Band?" Well first, I'd tell you to stop saying oh. You said that like three times, cut it out. But second of all, I'd tell you this: Who fights with tubas? Hm? Can you name even one character? No, hey you, in the back, put your hand down. The correct and only answer is: Big Band. Now, you might be also thinkin, "Gondy, oh Gondy, you haven't really explained at all why I should play as Big Band! In fact, you're just spouting a bunch of nonsense!" Well first, I'd congratulate you on using only one 'oh's for that entire sentence. Really, impressive! Good job! We're all very happy for you. But as for your actual question: can you name a character that fights with tubas?. Did you ever watch inspector gadget? Do you like Jazz?

Then this towering titan of musical proportions with his saxy attitude is a must.

Also, Bike horn. 10V10. The saxiest man I know.. TUBATUBATUBATUBATUBATUBATUBA

is big band op? the world is full of obvious things.. Robocop+Jazz Band+Smooth one-liners=Probably the best combo master in-game. Giant Tuba Man is my new main. Much better if you like to\u2665\u2665\u2665\u2665\u2665on people's hopes and dreams. Especially if you're up against a Filia main. I hope every Filia main gets the shortest straw in every future matchup they'll ever be in. But really it's about the fun. The fun in screwing over Filia mains. I really hate Filia.. You can see him use an ocarina in one of his attacks. Big Band confirmed for Zelda Wii U.

In all seriousness though, being an awesome expansion to the somewhat-limited character roster and fitting in seamlessly into the Skullgirls universe with his own storyline is why Big Band is an example of a DLC character done right. Although he's one of the harder characters to use in competitive matches, he strikes hard and can be a force to reckon with in the right hands. You definitely should buy this along with Eliza and Squigly if you're looking for a change of pace.. You can't spell Husbando without Band.. Any character with a Jotaro alternate costume is worthy to buy.. WARNING: May contain sexual content.. He has the same Japanese voice actor as Joseph Joestar and has many references to Stardust Crusaders, plus you can play the trumpet, and he's a charge character, pretty good overall. Big Band enters the stage! This is probably my favourite character in the game. An ex-cop turned robot (where have I seen that before?), he helps the Anti-Skullgirl Labs with the power of smooth jazz! What's great about this character is that, due to his size, he can resist being stunned by some hits. Also, with his taunt he can power up his Blockbusters, making them even stronger!

An overall great character, I really recommend him, although you should consider getting him as part of the 2nd Encore Upgrade.. One of his basic moves is a tiny bike horn. You know you want that.
